

# Beauty & Energy Reset Ceremony

- I will start with a deep cleansing of the scalp & hair. Followed by a deep conditioning
- While you sit with the conditioner the energy cleanse will begin. Removing all negative energy from your aura & reciting a cleansing prayer
- As we rinse out your hair and wash all the negativity & toxins out of your space I will then recharge your energy by a chakra balancing with crystals
- Once the energy reset is complete I will blow dry and style your hair and close the ceremony with a pulling of an energy oracle card from the universe and a closing meta prayer to start your day the right way.

Out with the old stagnant energy and in with the new beautiful energy
